AIPHONE®

K-12 School Districts & College Campuses

## Security & Communication Solutions

Offering an array of access control and communication products designed for school security and student safety.

Save with Centralized Security

With an Aiphone IP intercom system, a single person can regulate access and monitor school grounds across an entire networked campus or district. Regardless of building sizes – or the distances between them – you can connect virtually *every* building together.
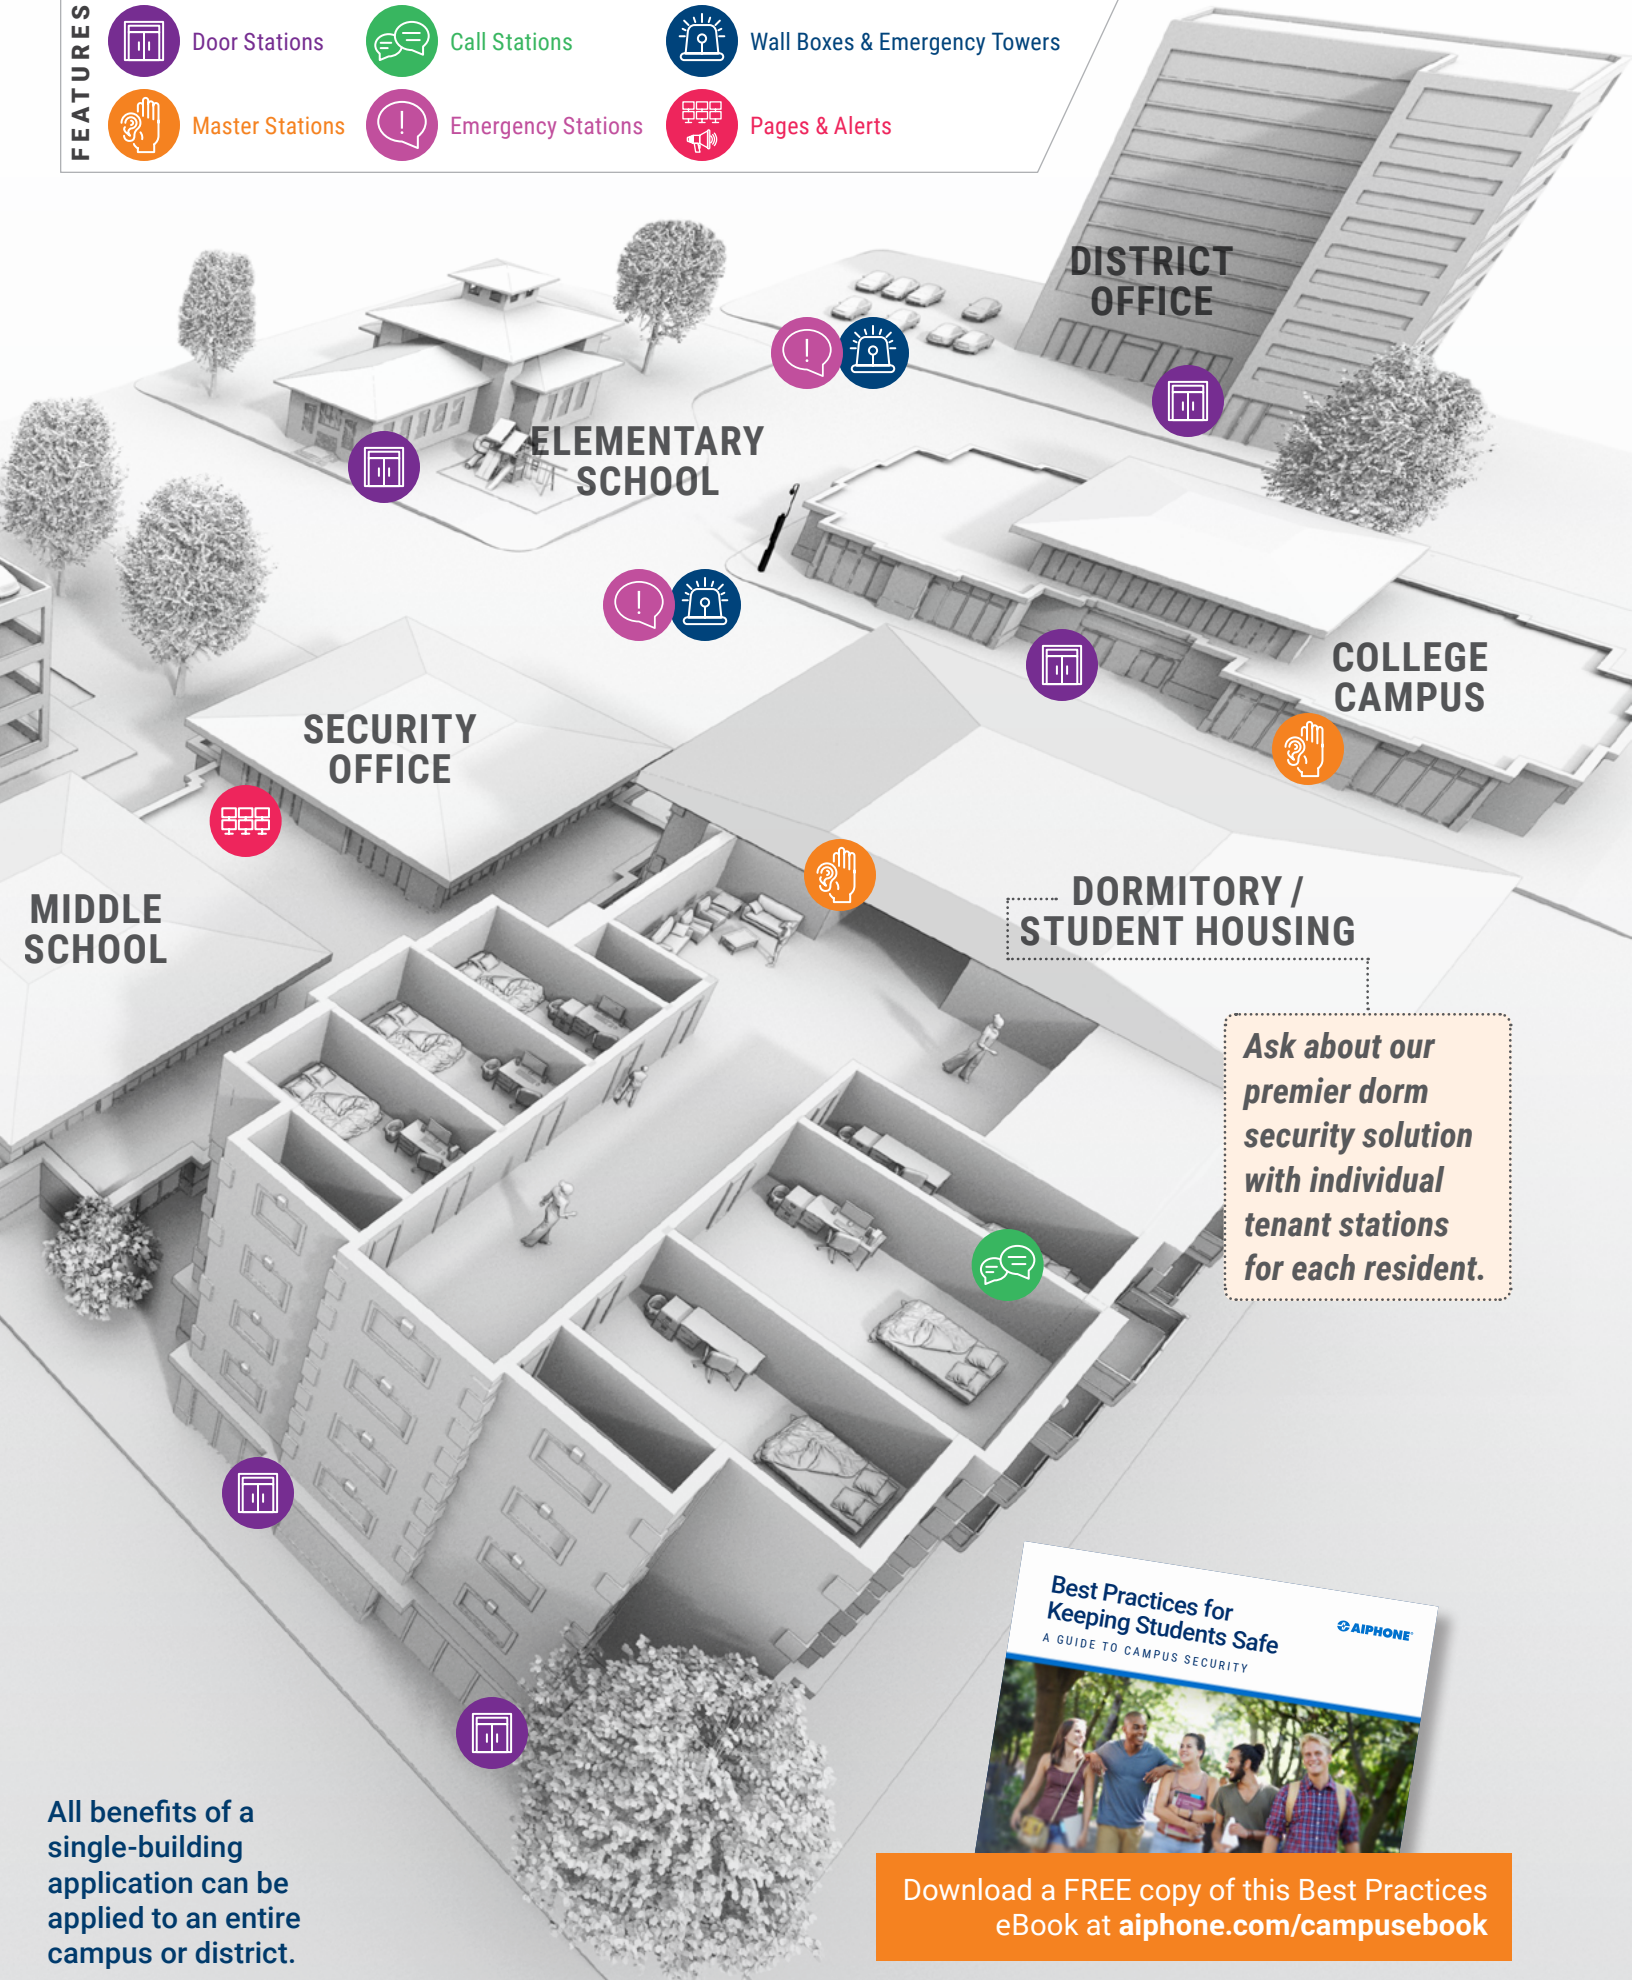

- ✓ *Reduce overhead for added security staff and resources*
- ✓ *Avoid high costs of running new wire by reusing existing network cable*
- ✓ *Eliminate recurring, costly licensing fees*

PARKING GARAGE

HIGH SCHOOL

Aiphone provides critical elements to maintain the security of your school and everyone in it.

Control Building Access with Door Stations

- Keep all entrances locked during school hours
- Install door stations to provide calling points for parents and visitors to request access into your school
- Protect interior locations with access control too, such as server rooms, computer labs, or any restricted area
- Card reader stations are a convenient option for faculty and other authorized personnel to quickly gain access

Empower Office Staff with Master Stations

- Clearly identify visitors and determine their intent before unlocking the door
- Monitor activity throughout entire school or campus
- Use as visitor management
- Record calls to a removable SD card
- Immediately call other offices and classrooms for 2-way communication
- Make general paging announcements or broadcast emergencies
- Use convenient bell scheduling for routine class changes or unpredictable events

Communicate with Classroom Stations

- Answer calls and pages from main office/reception
- Reach office staff directly from classroom (or from a dorm room if the application is for student housing)
- Have open or private conversations

Provide Help Points with Emergency Stations

- Get immediate help with emergency calling, including 911
- Dual-button stations available for general and emergency calls
- Choose your preferred mounting solution: flush/surface mount or mount into emergency wall boxes/towers

Secure Remote Areas with Wall Boxes & Towers

- Parking lots
- Parking garages
- Stairwells
- Hallways
- Any area where trouble might lurk
- Deter prowlers with highly visible emergency towers
- Provide students and staff help points across large grounds

Serious about school pride? Towers can be customize with your school color choice.

Broadcast Pages, Notifications, & Alerts

- Integrate with your PA system for all pages, alerts, and bell notifications to be clearly heard throughout your school/campus

Connect with 3rd-Party Devices

- Capture a more comprehensive picture of the situation with CCTV camera integration
- Log activity for more accurate and detailed record-keeping

Need proof a visitor was at your school? Save images to an NVR and reference them later if evidence is needed.

Options. Options. Options. And then more options.
Select from simple, audio-only systems to comprehensive, IP video security solutions.

Have confidence your students, faculty, and assets will remain safe from potential threats with a trusted Aiphone security communication solution. From classrooms to common areas, we offer a breadth of security solutions to apply throughout your school, campus, or entire district.
