

Improve Safety, Communication and Productivity with EverAlert.

Solve 3 Communication Challenges with 1 Solution.

EverAlert®
emergency communication platform

Emergency Notifications

Digital Messaging

Synchronized Time

“The fact that EverAlert can serve multiple functions really impressed me, from displaying news and lunch menus to alerts and emergency information...it’s really unlimited.”

- **Chuck Ehler**, Superintendent, Rushford-Peterson Schools

EverAlert Dynamic Display

Harness state-of-the-art emergency communication, messaging and synchronized time in your new building.

The EverAlert Dynamic Display is an integrated 22" visual display and campus-wide notification platform that combines multiple systems to support organizational messaging and emergency notifications.

Digital signage

Synchronized time

Network & Wireless Clocks Offer Flexible Solutions for Synchronized Time.

Wi-Fi Clocks

Wi-Fi clocks connect to your network and are ideal for conference rooms, hallways, offices, and more. No additional equipment or license fees required.

PoE Clocks

Our Power over Ethernet (PoE) analog and digital clocks are the energy-efficient standard for synchronized time. PoE clocks receive power and time through Ethernet connection.

Wireless Clocks

Easy-to-install wireless clocks save time and money for your organization. Control and manage your wireless clocks with a SiteSync IQ[®] system controller.
