

PHYSICAL SECURITY

Gain peace of mind with a 24/7 security solution

Gain peace of mind with **IP SURVEILLANCE** and **ACCESS CONTROL**. Installing physical security is a proactive way to take the necessary safety measures to keep your organization safe in today's world. There are many benefits of high definition cameras and secured doors. A comprehensive solution can:

- *Restrict unauthorized access*
- *Secure your environment*
- *Minimize long term costs*
- *Improve emergency response times*
- *Discourage misbehavior and dishonesty*
- *Provide peace of mind*

Our degree of experience with enterprise level security deployments is unsurpassed. A3 installs and maintains thousands of IP cameras and controlled doors in a variety of facilities. Through long-term partnerships with industry-leading manufacturers, we have the ability to provide end-to-end solutions using the most cutting-edge technology.

Having an established track record in the implementation of security systems along with a keen understanding of the associated infrastructure requirements, A3 is a leader in the physical security marketplace.

Recently named one of the nation's Fastest Growing Systems Integrator by *Security Business* magazine as well as Education Market Partner of the Year by Axis Communications in 2019, 2016, 2013 and 2011, we pride ourselves in offering the organizations we work with innovative, reliable solutions to solve current problems and prepare them for future growth.
