

HR HEALTHY ROSTER SAFER Campus

Quickly launch a **COVID-19 screening program** that automatically sends daily and **alerts administrators immediately.**

The image shows a tablet and a smartphone side-by-side. The tablet screen displays a software interface titled 'REPORT' with a sub-section 'COVID-19 SCREENING REPORT'. It shows a table of data with columns: First Name, Last Name, Last Sent, Completed, Urgency, Follow Up Completed, and Phone Number. The data includes entries for Alexa, Angie, Carly, Catie, Dennis, Drew, Emily, Grace, Joe, John, Liz, and Steven. The smartphone screen shows a text message from a user named 'Levick' with a timestamp of 4:15 PM. The message content is: 'Hi, Please complete your COVID-19 symptom screening prior to leaving your home today. This is short and should only take a minute or two. Thank You.' Below the message, there is a link: 'Please follow this link - https://public-api-demo.healthystarter.com/surveys/655a41e6-f89-4c11-87cc-ebe9c92a326bf'. At the bottom of the phone screen, there is a button that says 'Please stay home; we will reach out shortly. Thank You!'. The overall theme of the image is the integration of mobile communication with the software's screening functionality.

WHAT YOU GET

+ Secure & HIPAA Compliant

Screenings and data transfer protocols built on Amazon Healthcare Cloud and used by over 100 U.S. hospitals and health systems

+ Simple Screening Access

One-click screening send, or automatically schedule for daily sends, so students and faculty can complete questionnaires in one-click if no symptoms

+ Quick Onboarding & Launch

Upload all students and faculty in one step, and create multiple groups to monitor various locations and populations

+ Immediate Telehealth Consult

Connect with your team doctor or campus health clinic to more effectively assess and advise students and faculty on next steps

+ Identify Trends Quickly

Robust reporting allows you to understand what's happening daily, weekly and over time to ensure you prevent an early trend from becoming an outbreak

HOW IT HELPS

+ Save money

The ease of use of Healthy Roster means your already busy staff can focus on their primary roles, while also aiming to keep down the cost and fatigue of the campus health care staff

+ Feel secure

Know that administrators are keeping data private and secure in the HIPAA-compliant platform while being able to identify early trends to prevent outbreaks

+ Ensure compliance

Track follow-ups and know instant alerts and notifications go to the right people to take the proper precautions

+ Lasting solution

Platform includes the COVID-19 symptom screening plus a messaging and alert system, secure document signing, the opportunity to send out any surveys to all athletes easily, and much more

+ Increase confidence

Automate screenings to be sent out daily and only worry about athletes who are symptomatic
