Telecor | When Seconds Count,
It Can't Take Minutes

We have been helping schools with day-to-day and emergency communications for over 40 years with thousands of systems installed worldwide. From traditional intercom systems to state of the art network-based solutions – we know seconds count. Our award winning Visual Console integrates with our systems to provide point and click technology for mass notification and lockdown and our VuAlert High Definition Displays provide high visibility message delivery. When it comes to our children, safety is always top of mind at Telecor. *telecor.com*

Meerkat | Integrating Campus Safety for
Today's Changing World

Meerkat Safe is a wholistic school safety solution that utilizes an innovation combination of software, hardware, and integration into your existing systems to ensure your organization has clear visibility of all people, areas, and assets in real time. Unique mapping solutions allows a single pane of glass to monitor all systems overlaid on a custom 3-D map of a facility; easily see not only tracking information, but also cameras, access control, alarms, and environmental sensors from a single scree. *meerkat-tech.com*

Aiphone | Protect Your Schools with Proactive Security Communication Solutions

Aiphone is your partner in finding proactive security solutions for your school campus. With visitor screening technology, campus-wide communication, paging integration, and student housing solutions, we are here to help create a learning environment that places a premium on safety and security. Featuring Aiphone's IXG Series IP Multi-Tenant Video Intercom for schools and dormitories. One security guard or receptionist can monitor an entire campus from a single location, saving valuable resources over the life of your school's investment. *aiphone.com/home*

AT&T | Enhancing Student Safety with FirstNet

Texas City ISD has been a leader in implementing FirstNet -- the only nationwide, high-speed, broadband network designed specifically for public safety – to help ensure immediate access to first responders and school officials in the face of a critical incident. "When communication breaks down, the plan fails." says Dr. Rodney Cavness, Superintendent, Texas City ISD. "FirstNet has been instrumental in us developing and implementing what we believe is a gold standard of school safety and security. *att.com*
