VIDEO MANAGEMENT SYSTEM

OCULARIS

Qognify

REAL TIME SURVEILLANCE FOR REAL WORLD SITUATIONS

Qognify's Ocularis is a powerful video management software for enterprise and corporate physical security projects. With an emphasis on tactical, real-time operations and live visualization this reliable and flexible system does not miss a single detail – designed to enhance your security while simplifying your daily workload.

Business owners as well as decision makers and professionals in IT and Physical Security rely on Ocularis to recognize critical events early and assess situations fast. With three license packages designed to match the individual requirements of your organization, Ocularis provides the right level of security regardless of the scale of operation. As an open platform solution, it seamlessly fits in your Physical Security ecosystem helping change the course of events in real time and getting you closer to prevention

Intiuitive UI

Critical events require real-time information. Ocularis' intuitive UI for self-evident operation enables operators to assess a situation in seconds. Advanced image visualization capabilities make sure no event details are missed.

Flexible Access

Continuous and flexible access to the video system is imperative for tactical use and real-time operations. Ocularis provides a feature-rich native client as well as powerful mobile and web applications for remote access

Lower TCO

Ocularis significantly reduces the total costs of ownership of your video system as it utilizes the hardware in a very efficient way and prevents you from overspending on VMS licenses thanks to our mix-and-match approach.

OCULARIS
VIDEO MANAGEMENT SYSTEM

Ocularis leverages a sector-specific approach to holistic security with a very intuitive user interface, highly flexible access options and a versatile mix-and-match license model enabling and efficient and effective deployment of video security. It focuses on the unique requirements of K-12, Healthcare, Public Safety and governmental projects, thus maximizing the outcomes for your physical security strategy across a wide spectrum of integrated cameras, sensors and systems.

K-12

Designed for prevention as well as fast response in real-time, Ocularis addresses the security challenges of modern campuses including the safeguarding of students, responding on incidents in real time, preventing vandalism, keeping an eye on what's happening on campus anytime and anywhere and the ability to clarify incidents of theft or violence using enhanced research and analytics functionalities.

HEALTHCARE

From single clinics to multi-building complexes, Ocularis ensures the safety of places and the people in them with surveillance solutions that add a smart layer of protection. Whether its physical security or smart motion detection and advanced analytics, Ocularis puts you in control.

PUBLIC SAFETY

Intelligent and extremely user friendly, the Ocularis solution will transform the management of public and personal safety tasks with an all-encompassing view that provides security personnel with the relevant information they need, on-the-go, to respond to any situation quickly and effectively.

PRODUCT
PACKAGES
