Stress
Anxiety
Isolation
Loneliness
Overwhelm
Grief
Fear

Staff

According to the Experts: Youth Violence Against Self and Others is Preventable

Students are in the best position to **identify and report** concerning behaviors displayed by their classmates.

Schools should **intervene immediately**, before a student's behavior warrants legal and/or other consequences.

Assessments for students who are in distress and pose a threat will greatly reduce violence.

There is a **significant need** for mental health identification, intervention, and management.
