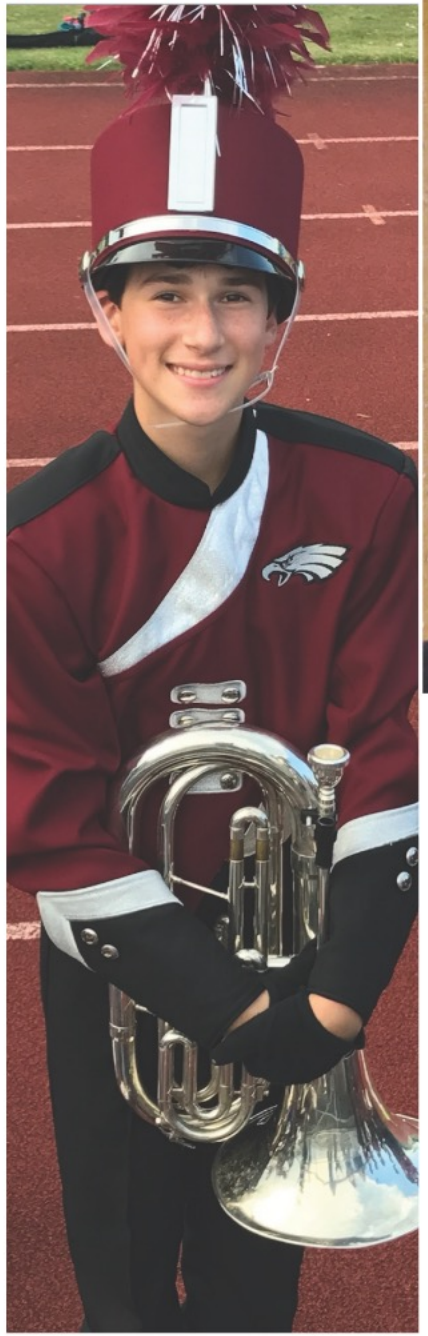
ALEX



We will always miss your special smile and dimples, the big hugs you always gave, how you followed your big brother around the house, how you teased your big sister, and how you always let your little sister style your hair. There will never be another one to replace you in our hearts and the love we will always have for you.

Foundational Elements of School Safety

While there isn't a universal safety plan, schools can take common actions to address the foundational elements of school safety.

SchoolSafety.gov provides a Safety Readiness Tool for you to evaluate how your district or school is addressing these foundational elements. When you are done with the assessment, you will get a personalized action plan that has resources and next steps for each of these areas.

School Environmental Safety Incident Reporting (SESIR) System - District & State Reports

The School Environmental Safety Incident Reporting (SESIR) System currently collects data on 26 incidents of crime, violence, and disruptive behaviors that occur on school grounds, on school transportation, and at off-campus, school-sponsored events, during any 24-hour period, 365 days per year. Incidents are reported by schools to the districts which, in turn, provide the data to the DOE.

Districts use standardized SESIR codes and definitions to report incidents to the department.

January 5, 2018 Tip

- The caller told the FBI that she was even more concerned about his propensity for violence because he had been acquiring guns, including rifles, since his mother's death. Before his mother died, he had "pulled a rifle on his mother." Then, after his mother's death, he took money out of his mother's account and "bought all these rifles and ammunition and he posted pictures of them on the Instagram." The photo was of "a whole bag with all kinds of rifles" and "scopes."
- The caller also explained that his Instagram accounts contained photos of animals he had mutilated and killed. She told the FBI that his interest in killing animals, cutting them up, and posting photos of them was "a red flag."

January 5, 2018 Tip Continued

- The caller gave the FBI specific details about his Instagram accounts, spelling out, letter-by-letter, the handles he used on Instagram.
- In addition, the caller said that he had expressed an affinity for ISIS, even dressing up as a member of ISIS and posting messages in Arabic that appeared to threaten that he would do something.
- The caller was specific about the way she expected him to explode—he was going to shoot up a school.
- The caller gave the FBI representative the name and phone number of the individuals who he was living with, and she provided the address of the home where he was living at the time.
