

## STRONG CONNECTIONS, SAFER CAMPUSES IN 2025 AT CS @ EDSPACES!

*As a 2025 CS Sponsor, you will be a part of the Campus Safety Pavilion.*

Campus Safety joins EDspaces again in 2025 for three days of joint networking, focused education and an innovative showcase.

The co-location of these two events opens the door to more resources for school and college administrators, campus security executives, law enforcement, and emergency management professionals, as we deliver new insights to architects and distributors in the education design market. Attending Campus Safety @ EDspaces is an opportunity to join a conversation focused summit that provides collaboration and the ability to learn from peers.

The goal is to assist in addressing the rising issues facing today's schools- using design to help them prepare for, prevent, and mitigate security and safety incidents.

EDspaces and Campus Safety will offer a Safety Pavilion on the tradeshow floor, as well as safety & security educational content.

Joining as a Campus Safety exhibitor gives you a space in the security pavilion. You will be part of the EDspaces experience, accessing the Campus Safety attendees as well as the full EDspaces audience. Visit [HERE](#) to see who you can expect to see in 2025.

*We have a variety of*  
**SPONSORSHIP OPPORTUNITIES available in 2025.**  
Talk with your account executive today to see what is a fit for you!
